

**TECHNICAL SPECIFICATION  
MOBILE C-ARM**

NAME OF PRODUCT	Basic digital flat detector C-arm
IMAGE	
BRAND / MANUFACTURER	SIEMENS
MODEL / TYPE	CIOS SELECT FD
COUNTRY OF ORIGIN	China
FACTORY OF ORIGIN	China
REFERENCE OF TECHNICAL	
X-RAY TUBE ANODE	Single tank with single-focus anode tube
Tube power rating, kW @ 100 kVp	2.3 kW
Heat capacity, HU	1.200.000 HU
Max. uninterrupted fluoro time	60 min at 400 W
Maximum output, kVp	110 kV
Range	40 - 110 kV
Continuous fluoroscopy	0.2 to 13 mA
Pulsed fluoroscopy	3 mA to 24 mA
Digital radiography	3 mA to 24 mA
Focal spot, mm	0.6 / 1.0
X-RAY GENERATOR	
Inverter control frequency	29 kHz to 44 kHz
Inherent filtration	3 mm Al with 70 kVp / 0.1 mm Cu
DIGITAL FLAT DETECTOR	aSi with CsI scintillator
Field of View	20.58 x 20.58 cm
Pixel size	205 µm
Matrix	1004 x 1004 pixels
Digitization depth	16 bits
Input fields	Mag 0 : 20.58 cm x 20.58 cm Mag 1 : 15 cm x 15 cm Mag 2 : 10 cm x 10 cm
SYSTEM CONTROL	Digital display touch-screen.
Footswitch	Yes
C-ARM MOVEMENT	Manual
Brakes	Manual, color-coded
Cone-detector distance (free space)	81 cm
Focus-detector distance	103 cm
Depth of immersion	73 cm
Orbital movement	130° (-40° to +90°)
Angulation	± 190°
Horizontal movement	20 cm
Swivel range	± 12°
Vertical travel	42 cm, motorized
UPS (Uninterruptible Power Supply)	Yes, built in trolley monitor
DOSE REDUCTION FUNCTIONS	CARE (Combined Applications to Reduce Exposure)
Automatic dose control	Yes
Automatic contrast and brightness control	Yes
Radiation-free positioning of primary collimator	Yes, CAREPROFILE
Selection of dose levels and operating modes	Yes, CAREVISION
Radiation release light indicator	Yes, on trolley
Dose measuring chambers	Yes
DATA TRANSFER AND DOCUMENTATION	
DICOM compatibility	DICOM 3.0
Offline data writer	CD, DVD, USB
MONITOR DISPLAY	2 x TFT color display
Screen size	19" (48 cm)
Image matrix	1280 x 1024 pixels
Maximum brightness, typical	350 cd/m²
Horizontal/vertical viewing angle	178° / 178°
DIGITAL PRINTER	Yes, Sony or equal

SIEMENS  
Healthineers

## Smart surgical imaging.

As the pressures on healthcare providers are increasing worldwide, having to do more with less has become an all-too-known requirement. No wonder then that a growing number of surgeons is asking for more powerful routine imaging equipment. Currently, however, the required technology is only accessible in high-end systems.

This is why we equipped Cios Select<sup>®</sup> with modern flat-detector technology, combining premium capabilities with an economic system design. The result is a system that offers excellent images, easy handling, and high system availability.

For you, this means access to optimal support in surgical procedures, efficient workflows, and high reliability in multidisciplinary use. Clearly a smart choice for your surgical routine...

**Cios Select**  
Introducing flat-detector capabilities  
to routine surgery

## At a glance

Learn how Cios Select combines flat-detector technology and an economic system design into a smart choice for routine surgery.

### Native FD technology

#### See more anatomical details

Cios Select features flat-detector technology. See the difference with large field of view, distortion-free images, and high spatial resolution. Retina FD technology offers better anatomical coverage, fewer images per procedure, and better visualization of details.

### DAVID

#### The right dose in each individual case

For each patient and every step of the procedure, Cios Select offers automated optimisation of dose, brightness, and contrast. In addition, protect your youngest patients with dedicated pediatric features and exam sets.

### Smart power management

#### The right power whenever and wherever you need it

Whether your power need, Cios Select has an answer. From static static imaging for documentation to dynamic imaging of moving objects. It also offers high heat storage capacity, and is powerful enough to support you through long-lasting procedures.

### Footswitch

The footswitch may be one of the last things you want to worry about in the OR. This one is as hassle-free as it gets: wireless, flexible to position, waterproof, easy to clean, and long-lasting.

<sup>a</sup>Option

<sup>b</sup>Compared to conventional mobile C-arm, data on file.

Introducing our database options to  
radiation surgery

**Postscript:** I am sorry to say that the new edition of *Principles of Economics* will not be published until 1934.

100

As Healthcare managers, our purpose is to make Healthcare providers as efficient by reducing costs or improving quality through appropriate technology. We believe that the best way to do this is to provide the right information to the right people at the right time. We offer a range of services from simple data entry to complex decision support systems. Our clients include hospitals, clinics, laboratories, pharmaceutical companies, medical equipment manufacturers, and government agencies. We understand that each organization is unique and we work closely with our clients to develop solutions that meet their specific needs. We have over 20 years of experience in the healthcare industry and are committed to providing high quality, reliable services.

For example, we can consider the following two cases:  
Case 1: The first case is that the two firms are perfectly competitive.  
Case 2: The second case is that the two firms are oligopolists.

As Healthcare managers, our purpose is to make Healthcare providers as efficient by reducing costs or improving quality through appropriate technology. Parliament, under either of which certain acts and regulations, made by the Government, may be submitted to a previous stage of the House of Commons for examination. The Parliament of Canada has no power to submit bills to the Senate for examination, but it has the power to submit bills to the Senate for consideration before they are introduced into the Senate.

**Our many clients are regular performers**  
Our best day goes largely unreported since you know  
the secret to success is to keep the good news quiet.  
But, Cognos clients are always in the top 25% of performers.  
It's just a coincidence? After all, "Cognos" has  
been around for 15 years now. And it's been a long time  
ago since we've had to work harder to earn a living.  
So, if you're looking for a partner who can add value and reduce costs,  
we're your best bet.

When things need to be research and efficient, ClickSalem supports you with a more search user interface with a large problem manager and your choice between basic and advanced mode. It gives you flexible and consistent system control – both at the Click and from the monitor side.

Get started with premium training now - and never pay another cent.
